Stocks Unsettled-- A Raid on the Market and Prices Temporarily Lower.

GOLD STEADY AT 116 5-8.

The Government Sale-Money and Bond Market.

WALL STREET, THURSDAY, June 10-6 P. M. Te-day, in its speculative events on the Stock Exchange, has amply illustrated the suggestions recently made in this column, that, unless a man is a capitalist and can afford to lose money pa-tiently and persistently, Wall street is no place for him at the present moment. At no time is there an established rule whereby he can secure profit, although there are periods when, on a rising or a falling market, he may be tolerably safe in the exereise of his judgment. But just now one is liable to deception and disappointment every hour in the day. This morning, for instance, prices were firm and for a time appeared to be advancing. A heavy purchasing movement was developed in Lake Shore, Western Union, Northwest, Pacific Mail, St. Paul and other active securities. It was breely given out, and not without reasonable foundation, that we are on the eve of a cessation of the destructive antago-nism that has existed between the Baltimore and ohio and kindred lines to the West. A director of the former road is alleged to have declared that the fight would end in less than two weeks. Hon. Reverdy Johnson is accredited with advice to an influential relative in this city to close up his short contracts in anticipation of the sudden change that would follow a suspension of hostilities, and some of the leading operators are known to have withdrawn their support of the market and to have counselled their friends to "keep hands off" until the financial panorama is further unrolled. Late in the day, however, there occurred another of the sudden cyclones that have periodically swept over Wall street during the last two months.

ACTIVE STOCKS.

The following are the prices of several of the active stocks:-Northwest and St. Paul were especially weak, the former declining from 39 to 8% for the common, and from 53 to 51% for the preferred, and the latter from 32% to 30% for the common, and from 55 to 54 for the preferred. Among the incidents of the street to-day it may be recorded that the Turner Brothers failed. This firm went down in the panic; but, aided by stout friends and their own credit, were enabled to resume business. Holding, however, much unavailable paper, and disappointed in the process of recovery from low prices both for real estate and bonded securities in which the firm was interested, they have been obliged to succumb to the inevitable, and carry with them in their misfortune the sympathy of their friends.
